We Take Full Responsibility

For Music Education Advocacy

We believe every child deserves music education and the opportunity to play an instrument. That’s why Yamaha advocates for music and arts education at local school boards, state capitols and in Washington D.C. And, since learning music improves test scores, builds self-confidence and fosters future success, music education leads to a brighter future for our children.
Happy New Year is a traditional greeting, heard round the world in many languages, to express dreams and shared individual and community wishes. When I think of the amazing men and women who choose to ensure America’s future by teaching its most valuable assets, the most appropriate first words from me to you are – “Thank you.” As Music for All starts 2019 and presents to you in the newsletter our upcoming programs and events, I am reminded that none of it would be possible without you. Thank you for choosing to be a music educator.

Children need you now more than ever, and America needs you, teaching and guiding the young people who will continue to be the leaders in our communities and in society. Thank you!

A special Thank you to the men and women choosing to teach in the most challenging circumstances. Please know that you are supported. Music for All is here for you. We are committed to you and the children, families and communities you serve.

In 2019, Music for All will pass the mid-point of our current five-year Strategic Plan and we are stronger and better resourced than at any time in the past. I attribute our success to you. Our strength and success comes from collaborations, of which teachers are no small part. Thank you.

To our past, present, and future participants in Music for All programs, Thank you. To the presenters and participants in our Affiliate Regional Music Festivals, Thank you for your investment in and contributions to improving your communities and serving music educators and students.

To the Country Music Association, NAMM Foundation, George & Frances Ball Foundation, Ball Brothers Foundation, and The Lilly Endowment, Thank you for your trust and belief in our vision and call to serve small, rural, and core urban schools and communities and to extend our mission to America’s choral students and teachers. Thank you to the National Band Association, College Band Directors National Association, the Midwest Clinic, United Sound, “Be Part of the Music” and so many others for modeling the power of collaboration, and saying “yes” to calls to serve, address, and remove access and equity barriers to quality music education for all children.

As you consider our upcoming offerings, please join us in acknowledging and thanking our National Presenting Sponsor, Yamaha Corporation of America, and our other sponsors (recognized on page 37), as well as the hundreds of gifted music educators – the clinicians, evaluators, adjudicators, and program participants – with whom we collaborate to present Music for All programs.

I applaud your pursuit of excellence and your commitment to educating America’s youth. Thank you, Happy New Year, and best wishes for a fulfilling and successful second half of the 2018-2019 school year.
Unforgettable...

“THIS PAST WEEK HAS BEEN BY FAR THE MOST EMPOWERING WEEK I’VE EVER HAD AS AN EDUCATOR. I HAVE GAINED SOME NEW INSIGHTS AND PERSPECTIVES, AND HAVE BROADENED MY NETWORK OF SUPPORT, AND MADE SOME NEW FRIENDS.”

“IN MY 23 YEARS OF TEACHING THIS HAS BEEN THE MOST RELEVANT AND INSPIRING DAYS OF PROFESSIONAL DEVELOPMENT THAT I HAVE EVER BEEN A PART OF.”

“AS SOMEONE WHO IS FAIRLY NEW TO THE FIELD, THE SUMMER SYMPOSIUM DIRECTORS ACADEMY WAS AN EXCELLENT OPPORTUNITY TO CONNECT WITH EDUCATORS WHO ARE EAGER TO HELP FIND SOLUTIONS TO EDUCATIONAL ISSUES.”

“I AM THE DIRECTOR OF A SMALL, RURAL, NON-COMPETITIVE PROGRAM. WHEN I FIRST CAME TO THE MUSIC FOR ALL SUMMER SYMPOSIUM I DIDN’T KNOW HOW MUCH I WOULD GET OUT OF IT. I THOUGHT IT WAS GOING TO BE MAINLY AIMED TOWARDS THE COMPETITIVE SIDE OF OUR ART. I WAS PLEASANTLY SURPRISED TO FIND A MULTITUDE OF SESSIONS THAT ARE APPLICABLE TO ANY PROGRAM, ANY SIZE, ANY LOCATION.”

MIDLE SCHOOL AND YOUNG TEACHER ACADEMY

The Summer Symposium Middle School & Young Teacher Academy is designed to deliver a curriculum that will arm middle school teachers and young music educators with the tools they need to provide their students with a positively life-changing experience. The typical model for middle schools in America is a three-year program (6th, 7th, and 8th grade). Unfortunately, three years is also the typical career-span for young music educators. Most recent studies show that America is on the verge of a major shortage of qualified music educators. Through a progressive curriculum, the Middle School/Young Teacher Academy at the Summer Symposium will provide a “hands-on” education that will prepare young teachers to thrive, not just survive!

Music for All offers an experience that will be realistic and taught by experienced and successful practitioners from a range of programs and settings, including small school, low budget, urban, and rural situations. In addition to the Middle School/Young Teacher curriculum, your experience includes the Summer Symposium general curriculum, world-class concerts and musical experiences, networking with the finest music educators in the country, professional development certification from Music for All, opportunity to register for Graduate Credit through VanderCook College, and more.

Who Should Attend? Experienced middle school teachers looking for a fresh approach and new ideas; recent graduates and young teachers; high school teachers looking to create a unified philosophy with their feeder program.

The “Nuts and Bolts” aspect of the curriculum will deal with fundamentals of teaching 6th graders in a middle school setting. In a nutshell, we will fill the gap to teach you what you didn’t learn in college! The “Ensemble” sessions will focus on the challenges that accompany the ensemble experience. Other sessions include “Maximizing the Middle School Experience,” focusing on both maximizing your students’ middle school experience, as well as helping you to prepare them for the journey to high school.

LEADERSHIP WEEKEND EXPERIENCE

JUNE 22-23, 2019

High School Students: Interact with band, choir, and orchestra students from across the country at one of the premier two-day leadership programs created specifically for music students. Immerse yourself in a non-stop, interactive, leadership learning lab you simply will not find anywhere else. All students experience immersive and interactive leadership learning with rotating large-group, small-group, and experientially-engaging sessions. Special guests share their insight inspiring everyone to understand that the world needs smarter and better leadership from everybody. Students will learn the leadership mindset and skills that last a lifetime: how to pay attention, respond appropriately, and make things happen with others in a constructively positive way. Discover why we develop more student leaders in the music education world who truly make things happen and take the lead.

Directors: Do you want more of your students to participate positively in your program? Can you imagine what would happen if all your student leaders constructively brought to life the leadership lessons you talk about? At Music for All’s Summer Symposium we turn talk into action, involving your students in many unforgettable, hands-on activities for team building, problem solving, and leadership learning.

Parents: Did you know research shows pre-college leadership experiences predict most of the variance in college leadership outcomes? That means when students learn to lead in high school, their success in college leadership opportunities increases significantly. Give your student the positively life-changing experience of developing more of their future long-term leadership potential at the Leadership Weekend Experience.

First-year participants: Share a series of sessions with Fran Kick, Scott Lang, Frank Troyka, and a fantastic faculty of leadership educators. You will gain the insight in understanding other peoples perspectives and how to balance your leadership approach with others, while creating collaboration and commitment.

Returning participants: Come back for more time with Dr. Tim Lautzenheiser and Fran Kick. You will explore trust-building and team-building principles essential for group success in music and beyond. Travel off-site to an experiential ropes course and be challenged-by-choice as you reach beyond where you thought you could go. Learn the horse-whispering secrets of communication utilizing increased awareness without having to use force, power, or control.

Any student who wants to make a difference in their band, choir, orchestra, school, or community can join us. Fran Kick and a fantastic faculty of student leadership educators will inspire students to Kick It In® and Take the Lead. Having worked with Fran for over two decades, Music for All shares in his passion and mission to develop student leadership in all students, rather than just let it happen with a selected few. 2019 Advocacy in Action Award Winners Announced

Music for All’s Advocacy in Action Awards recognize music programs, schools, and communities across the United States that demonstrate outstanding achievement in efforts to provide access to music education for all students. To qualify for the Advocacy in Action Award designation, schools and districts submitted detailed descriptions of their music programs and project entries. Submissions were reviewed by a national panel of educators, administrators, community leaders, and business leaders. You can read and be inspired by the detail of all of our award-winners online at advocacy.musicforall.org. Here are some featured winners.

Fundraising & Sponsorship
“Blitz Boost” Rouse H.S., TX

The Blitz is a six-week online direct donation program that supplements the Rouse High School Band’s budget each year. The booster organization hosts a Telethon Pizza Party for the students to call and text family, friends, and community members, and at the end of this year’s Telethon, they had approximately $12,000 pledged of their $20,000 goal. Students texted, emailed, and shared links to the Blitz website on social media, and they increased momentum through student-driven incentives, such as free smart music passes for the student in each section with the highest donations. Overall, the Blitz raised $26,000 for the Rouse High School Band program this year.

Marketing & Promotion
“Extended Community Building” Highland H.S., AZ

The goal of Highland High School’s Extended Community Building is to market their orchestras to the large population of retired adults moving to retirement communities, encouraging them to come to performances by bringing the concert to them. The model begins with a one semester Strolling Strings class where students learn the ‘strolling’ aspect of memorization and how to communicate and visit with the crowd – a large part of why people come to the show. During the second semester, they begin to travel, performing up to 10 gigs per year. After many years of relationship building, the program has grown substantially, with their holiday concerts selling out all three performances in a 900-seat auditorium.

Parent & Booster Involvement
“Private Lesson Scholarships” Princeton City School District, OH

While it is not required to attend private music lessons at Princeton, many students desire to do so. In 1961, Princeton Music Boosters started awarding 2 scholarships allowing students to attend private music lessons. Today, they award 25 scholarships ranging in value from $500-$750. About two-thirds of the scholarships are named in memory or in honor of loved ones and are funded by private donations from alumni, staff, and supporters. The remaining are funded by the Princeton Music Boosters from their general budget and a variety of fundraising activities.

Recruitment & Retention
“Knights of the Rock Table” Windsor H.S., NY

The Windsor High School Music Program works to ensure that every student can participate in a course or ensemble pertaining to their musical interests, offering exciting opportunities for non-traditional musicians in addition to Band and Chorus. This was the motivation behind the Knights of the Rock Table (KORT), a music program created based on the students’ musical interests that has led to the creation of a variety of new courses such as Piano, Guitar, Bass Guitar, and Drum Set. By offering a ‘music education for everyone,’ participation in their ensembles skyrocketed and over 80% of incoming freshmen choose to fulfill their mandatory Fine Arts credit with a music course.

Decision-Maker Interaction
“Success Through Collaboration” Northbrook Jr. High School, IL

The collaborative relationship between administration and music educators is a hallmark of Northbrook School District 28. At least two administrators attend every concert for performing groups, participate regularly and actively in booster meetings, and are involved in music productions at the elementary level. The music faculty set administrators up for success by providing them with data that allows the administration to approach the Board of Education fully prepared to speak to the needs of the music department from a factual and historical perspective.

Community Engagement
“Right Now (We Need One Another)” Charlottesville H.S., VA

In the wake of the deadly events of August 11-12, 2017, a group of five Metro Nashville Schools students showed their love and support for the Charlottesville community by recording a version of BeBe Winans’s song “Right Now (We Need One Another)” and putting together a heartwarming video message that was emailed to teachers at Charlottesville High School. On Friday, September 15, the two groups of students came together to perform the song at a school-wide assembly at Charlottesville High School. Nine days later, the video of the combined performance was broadcast as part of the Concert For Charlottesville featuring musicians such as Dave Matthews, Pharrell Williams, and Stevie Wonder.

SELECTING REPERTOIRE: A MATTER OF CONSCIENCE, A PERSONAL VIEWPOINT

By Craig Kirchhoff | Yamaha Master Educator

Every year that we teach and conduct we are challenged by the inevitable process of making decisions about the repertoire that we will share and explore with our students. The process is a daunting one because it challenges us to re-examine our values and our depth as music educators and musicians. Selecting repertoire is not about choosing pieces to play; selecting repertoire is about defining a curriculum and our beliefs about what music education should be for our students. Selecting repertoire is also about commitment, exposure, and risk: commitment, because the music that we rehearse and perform defines our values; exposure, because we share this repertoire with our students and eventually with an audience; and risk, because the music we select may not always resonate with what students, parents, and administrators believe to be the purpose of a band program in an academic setting.

The Value System Behind Our Actions

Nearly twenty years ago composer Warren Benson asked an important rhetorical question at an international conference of conductors and teachers. “What was it that brought us to music in the first place?” Warren’s answer has profound implications for our role as music educators.

“It is something in humankind that we find since the beginning of time that compels us to put an engraving on the handle of a knife, a design on the blade of an oar, or a configuration on the exterior of a ceramic pot. It requires that we sing to be born, sing to die, sing to plant, sing to be together, and sing to be alone.”

What Warren was describing is the creative and artistic spirit that is an inherent part of our nature; it is a part of the business of being human. The purpose of music education, therefore, should be to stimulate, nurture, and enhance the creativity, the imagination, and the expressive spirit of our students, qualities that have been a part of their being long before they entered our rehearsal halls or classrooms. Our goal should be to nurture a life-long love affair with music and with the creative process. To accomplish this goal we have to become evangelists for three essential beliefs that should guide our performance curriculum:

1. The process of teaching and exploring music is more important than producing concerts or participating in contests and festivals.
2. The educational outcomes for our students must be emphasized over the residual entertainment value that is often a high priority of administrators and parents.
3. The long-term value of music education in the lives of our students is more important than the short-term rewards.

In addition, we have to diligently remind ourselves, and others, that the quality of our student’s music education is directly related to the quality of the curriculum they study and perform.

“The future of music may not be with music itself, but rather...in the way it makes itself a part of the finer things humanity does and dreams of.”

– Charles Ives

The Quest for Exemplary Repertoire: The Essence of a Quality Music Education

The article above is the first of many which Music for All will publish throughout 2019 online and in print, sharing the viewpoints of our world-renowned National Concert Band Festival evaluation panel regarding the necessity of sharing with our students repertoire of the highest artistic merit. The National Concert Band Festival evaluators have identified this focus as a high educational priority.

To this end, our National Concert Band Festival evaluation panel has compiled a “Core Repertoire Guide” for band that is intended to challenge and inspire each of us to seriously consider the artistry and depth of music we share with our students. This guide can be found at musicforall.org/core-rep. The middle school repertoire guide can also be found at musicforall.org/core-rep.

This first article written by evaluation panel member Professor Craig Kirchhoff inspires us to consider that the music we choose for our students is a reflection of our own musical depth and what we personally value in music repertoire. It is the curriculum for our classroom.

Let this series of articles challenge all of us to refocus our passion for the pursuit of music of artistic merit for our students.

ASSUMPTION COLLEGE: A SINGLE SOUND SOLUTION FOR MANY ACOUSTICAL NEEDS

By Stacy Hanson | Director of Marketing Communications, Wenger Corporation

A fit for all: The brand new Curtis Performance Hall at the Tsotsis Academic Center at Assumption College in Worcester, Massachusetts, was built to serve many needs. Class lectures, theatrical performances, choir concerts and movie showings all happen at the hall. And those many needs require vastly different acoustics.

To determine the right sound solution, the school leadership partnered with acousticians, architects, consultants and sound experts. They set out to determine how to create the best-sounding, best-looking space to accommodate the various needs of the students.

Solution for singers and speakers: Choral Director Michelle Graveline wanted a space where her choir could shine for audiences near and far. But the auditorium would also be used as a lecture hall.

"Spoken word is at the low end of reverberation time and choral performance is at the high end of reverberation," explains Alex Bagnall, acoustician with Cavanaugh Tocii Associates, the acoustical consultants on the project.

"Early on, they asked about adjustability. We explored using drapes but the room wasn't big enough to achieve a reverberation time that would be appropriate for choral music. That's when the idea of electronically enhanced acoustics came up," he says.

In order to hear what that might sound like, Bagnall suggested they visit another school where an electronic system was already in place. It was time for a field trip.

Hear it to believe it: When it comes to technology, sometimes you don't understand it until you experience it.

"We were trying to explain how an active acoustic system might just be the perfect fit," says Ron Freiheit, Director of Acoustics at Wenger Corporation. Active acoustics includes a system of microphones and speakers that help project sound among musicians and into the audience. "We knew they needed to hear it to really understand it."

They invited Graveline and her team to Wartburg College in Waverly, Iowa, where Wenger's Transcend Active Acoustic System is installed in Neumann Auditorium.

"What's great about this system is that it gives facility managers the ability to enhance acoustic environments in virtually any space: performing arts centers, auditoriums, theatres, opera houses, arenas and worship spaces," says Matt Hildebrand, Acoustics Product Manager at Wenger. "It's high-performance and offers great flexibility."

Flexibility includes presets to accommodate everything from a small concert setting to a medium-sized lecture hall to a large chapel simulation. Each preset is customizable and can be changed between uses with the touch of a few buttons.

"Going to Wartburg definitely helped," Bagnall says. "The classical music crowd has an inherent distrust of all things electronic. They needed to hear that enhancements can be subtle and helpful."

Created to be customized: Bagnall and his fellow acoustician Kent McKelvie worked with Wenger's Hildebrand and Freiheit to determine how many speakers and microphones the space would need and where to position them. They opted for two microphones and 60 speakers placed strategically throughout the auditorium.

They chose six custom presets, one for each of the most common needs in the space: lecture hall, small recital, medium recital, small hall setting, large hall setting and chapel.

"We worked with the architects to get the sound absorption distributed properly so the system could work with the room," McKelvie explains. "Now it looks good and sounds good."

"Most schools can't afford to have a different venue for every different acoustical need so a system like this can satisfy everyone," Freiheit says.

As a bonus, they were able to tap into the existing surround sound system in the auditorium. They use this mode when viewing movies for a more immersive sound.

Finishing touches: The final tuning stages involved bringing in different music sources, like a singer and a violinist, and adjusting the presets. The musicians using it need to get used to it and figure out how to use it to their advantage.

"We typically let the customer use it for awhile and then go back in six months and see if anything needs to be tweaked. It takes awhile to get a sense of what it is," Freiheit says.

"Ideally, the casual visitor isn't aware that there's an acoustic system in the auditorium," McKelvie says. "We just want them to think that everything they heard that night was amazing."

FINDING A BALANCE: QUALITY VS AFFORDABILITY

Each year, thousands of students begin their musical journey by signing up to be in their school’s band or orchestra program. Each child’s first instrument will play a critical role in whether he or she will learn to practice, make the effort to care for the instrument, and ultimately, decide to stick with playing and progressing in the craft. The good news is: there are fantastic beginner and step up woodwind, brass and low brass, strings, marching and percussion instruments available that won’t break your budget!
